

# INVITES HORIZON TECHNOLOGIES TO JOIN US AT AWS RE:INVENT

NOV. 28 – DEC. 2, 2022 | LAS VEGAS, NV

**AMD**   
together we advance\_

# Hello, Adam!

**Discover innovations leading to your next breakthrough success.**

Explore the latest technologies and business breakthroughs to benefit Horizon Technologies.

# Amazon EC2 Instances Powered by AMD EPYC™ Processors

Delivering powerful choices for your compute-intensive workloads for Horizon Technologies

## HIGH PERFORMANCE

Help you optimize **cost** and **performance** for your workloads

## SEAMLESS MIGRATION

**Easily migrate** applications currently running on existing EC2 instances to the new AMD-based variants **with little to no modification**

## BETTER ECONOMICS

Deliver up to **10% lower cost** versus comparable instances.

## AMD BASED INSTANCES

M6A|M5A

GENERAL PURPOSE

FPGA ACCELERATOR\*

# INTERNAL<sup>®</sup> + AMD

## Collaborating to maximize the performance of key media rendering services.

- **Running on Amazon EC2 Infrastructure featuring AMD**
  - **Kubernetes Orchestration on M6a for balanced Compute, Memory, and Performance ROI**
  - **Graphic Designed Brochure Rendering on T3a for cost effective burst and memory performance ROI**
  - **High performance accelerate graphics-intensive applications and machine learning on G5 for synthetic voice and digital human rendering**
- **Avg. 10% cost reduction with equal performance and scalability with better power efficiency**

# Iternal Technologies Partner Spotlight

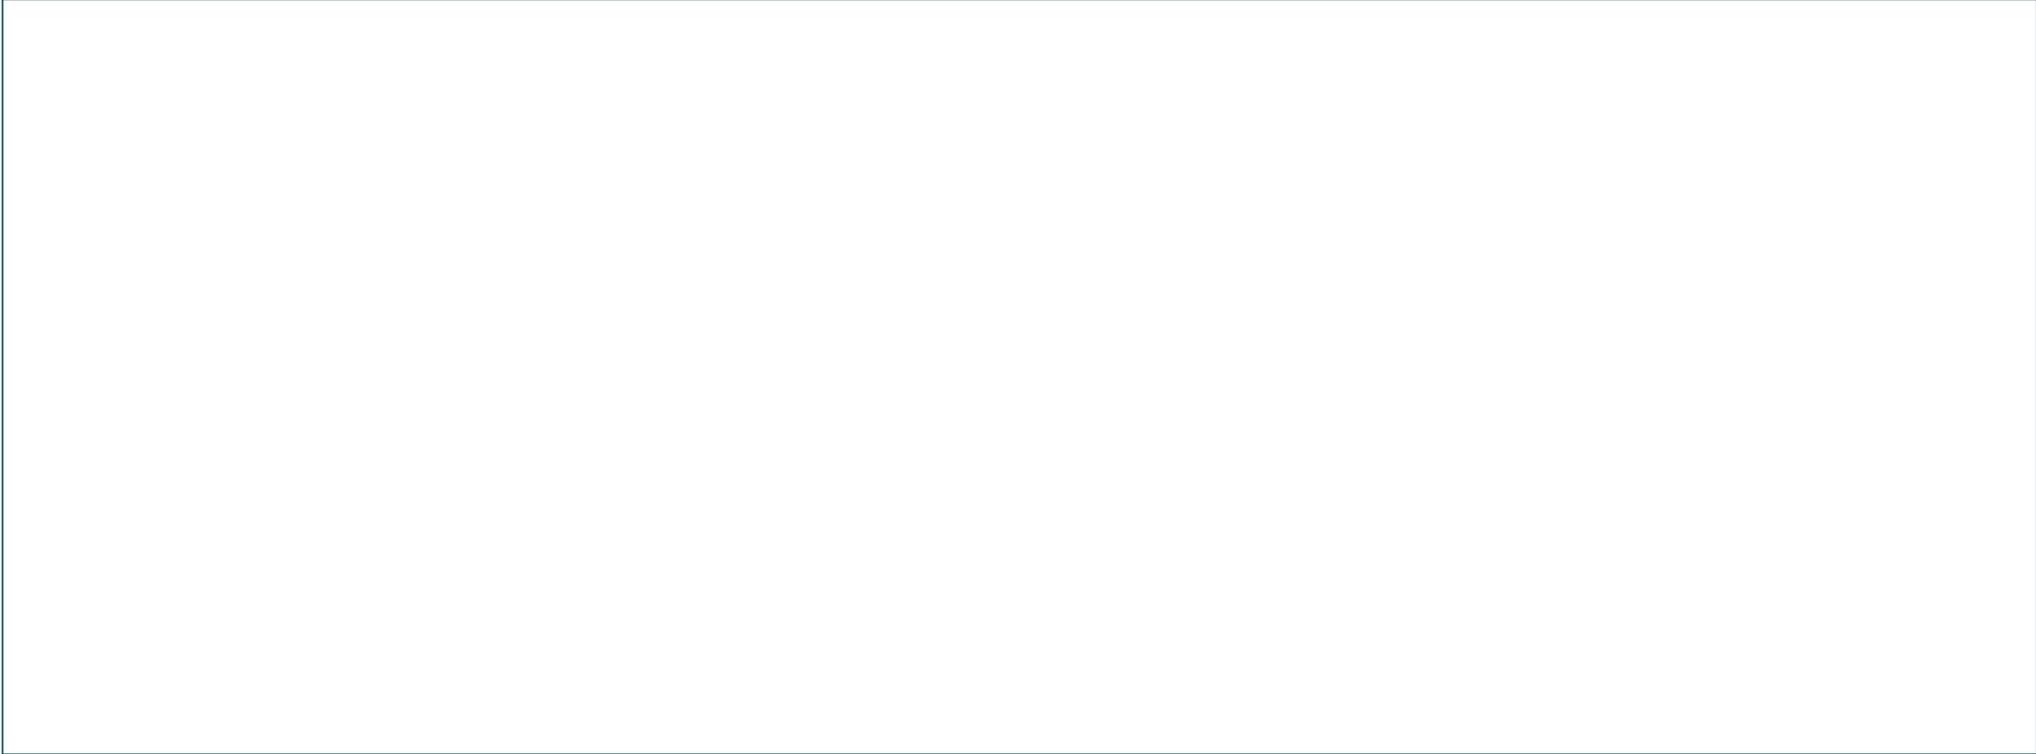

Accelerating digital transformation for Horizon Technologies

**This PDF was generated for you, in seconds, using Iternal Technologies running on Amazon EC2 powered by AMD**

Curating the right information, to the right person, at the right time, and in the right language is now more important than ever. As organizations like Horizon Technologies are seeking to modernize and accelerate, Iternal Technologies in partnership with AMD are supporting the transformation of how organizations rapidly create personalized, curated content for customers, employees, and partners through different types of media.

Automation, Artificial Intelligence, and Digital Avatars are not going to reduce the workforce but rather open up new opportunities for Organizations to work smarter and spend less time on the tedious and mundane processes that slow effective execution of mission objectives.

Click on a tab to learn more how Iternal and AMD can accelerate your objectives
